A fun, semi-private acoustic meeting space!

The **Barn 235** is a clubhouse, for adults! The open and fun semi-private space offers an informal area to meet, connect and enjoy conversations with colleagues. With acoustic panels and slotted roof, conversations remain muted within and outside of the meeting area.

This beautiful acoustic product draws people in, elevates the mood and brings smiles. It's a brilliant way to bring life back to the workspace.

About the Design:

Designed by Kauppi & Kauppi of Sweden, the product has a clear horizontal expression, inspired by the beautiful landscape of Swedish Lapland. The system is based on acoustic panels of fabric, mounted at consistent distances, giving the furniture a balanced combination of sound absorption and transparency, for large scale repetition in public interiors.

Dimensions

Barn 235

Width: 74"
Depth: 72" (open gable)
Depth: 73" (semi-open gable)
Height: 92.5"

Description

Barn 235 has a white metal frame in 1.57" square tubes which stands on a frame in flat iron. The parts are coupled with hidden connection angles. Panels that form walls and roof are hooked onto the frame.

Panels: .75" lightweight MDF with .24" polyether and fabric. The nails are covered with a decorative piping cord.
Metal frame: Powder coated NCS S 0500-N White
100% recyclable material.

Mounting: (2 persons) ceiling height at least 94.5"
The frame is screwed together with hidden connecting angles. The panels are hooked with neck braces on the outside of the body. Full stability is achieved when all panels are mounted.
