

Introducing the **Neuron Activation Pod**

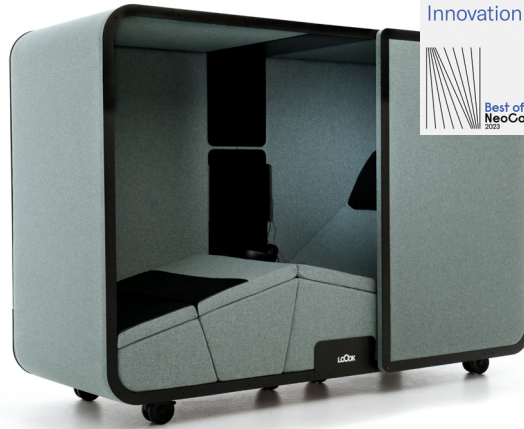

The **Neuron Activation Pod** is equipped with groundbreaking Finnish health technology with a singular focus on enhancing human well-being. This pod is a giant leap towards the office of the future. This is not just a silent capsule or a traditional sleep pod.

LoOok

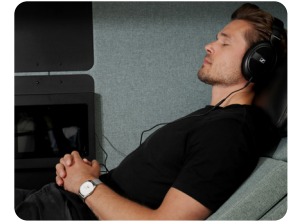

Reduces Stress & Anxiety

The **Neuron Activation Pod** transmits very low frequency vibrations in the body. The technology promotes the body's natural healing abilities, especially through the quality and power of sleep. The technology mechanically guides the user into a meditation-like state. The vibration directly affects the autonomic nervous system, so the mind does not have to make an effort to relax. The mechanisms of the nervous system are activated, and stress-related symptoms, such as anxiety, sleep disorders and, according to customer experiences, also pain are relieved. The preventive effect takes care of you every day.
