Barn 235

BY KAUPPI & KAUPPI FOR GLIMAKRA OF SWEDEN

Open Pods

A stripped, slightly smaller / lower variant of Barn 270 which is developed for projects where the ceiling height is about 2.40 m. The design has a clear horizontal expression, inspired by the landscape of Swedish Lapland. The system is based on acoustic panels of fabric, mounted at consistent distances, giving the furniture a balanced combination of sound absorption and transparency, for large-scale repetition in public interiors. For Barn 235, there are fixed benches and desks that can also be supplemented afterwards.

Dimensions

Barn 270

Width: 1896 mm
Depth: 1863 mm (incl gable)
1830 mm (excl gable)
Height: 2350 mm

Description

Barn 235 has a white metal frame in 40 mm square tubes which stands on a frame in flat iron. The parts are coupled with hidden connection angles. Panels that form walls and roof are hooked onto the frame.

Panels: 19 mm lightweight MDF with 6 mm polyether and fabric. The nails are covered with a decorative piping cord.
Metal frame: Powder coated NCS S 0500-N White
100% recyclable material.

Mounting: (2 persons) ceiling height at least 240 cm
The frame is screwed together with hidden connecting angles. The panels are hooked with neck braces on the outside of the body. Full stability is achieved when all panels are mounted.
