GreenFrame

DESIGNED BY KAUPPI & KAUPPI MADE BY GLIMAKRA OF SWEDEN

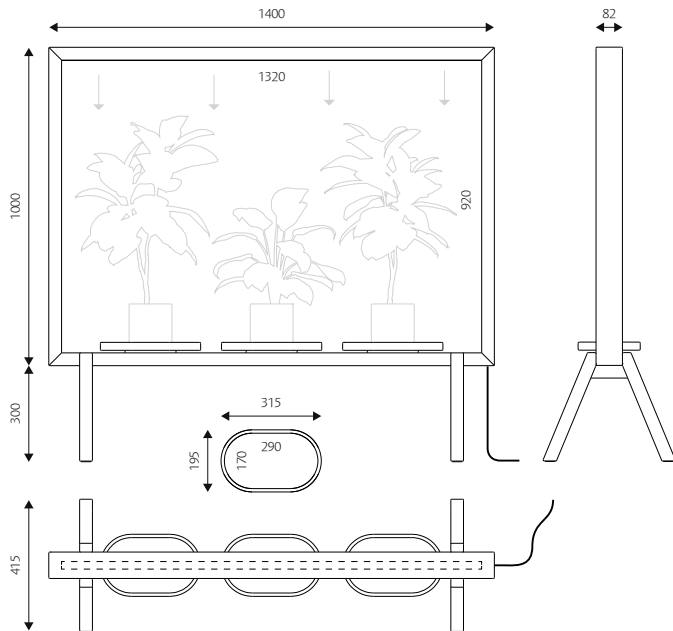

GreenFrame Floor Screen

BY GLIMAKRA OF SWEDEN

Don't we all wish there were more green windows at work? GreenFrame is a floor screen with lighting that gives potted plants and greenery a prominent role in interiors, even where the daylight may not be enough. GreenFrame is made entirely of solid ash wood and contributes to better indoor climate, nicer workplaces and happier plants.

Dimensions

1400 x 1300 mm

Weight / volume: 18 kg / 0,17 m³

Description

Floor screen for potted plants. Solid wood frame 82 x 40 mm in ash wood.

3 flowerpot sausers. 24V LED Lighting 19.2W / m, 3000K, white light, integrated aluminum profile. Decorative piping with concealed lead in side post. 3 m cable with LED-Driver placed under the frame.

Legs: 420 x 300 x 40 mm in solid ash. The foot adds approx 300 mm.

Installation: The frame is delivered ready assembled. The feet and the flowerpot sausers are screwed through the wooden frame.

100% recyclable material.

Options

Other stains on request.

Cerificates

Glimakra of Sweden AB is certified according to ISO 9001:2015 and ISO 14001:2015.
